ARTICLE I. IN GENERAL

Sec. 14-1. Scope.

- (a) *New buildings.* New buildings or structures erected after the effective date of the ordinance from which this section is derived in the city shall conform to all requirements of this chapter; and all requirements in this chapter, unless specifically provided, shall apply to new buildings.
- (b) *Existing buildings.* The requirements of this chapter shall apply to existing buildings that do not conform to the requirements of this chapter for new buildings.

(Code 1983, § 14.01(4))

Sec. 14-2. Definitions.

The following words, terms and phrases, when used in this chapter, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Building inspector means the building inspector or his authorized representatives. The building inspector shall perform all inspection functions, including plumbing and electrical.

(Code 1983, § 14.03(2))

Cross references: Definitions generally, § 1-2.

Sec. 14-3. Nonliability of city.

The city, by enactment of this chapter, does not assume any liability on the part of the city for damages to anyone injured or for the property destroyed by any defect in any building or equipment, or in any gas appliance or installation, or in any plumbing or electric wiring or equipment, or by reason of any inspections made or permits issued.

(Code 1983, § 14.52)

Secs. 14-4--14-35. Reserved.

ARTICLE II. ADMINISTRATION AND ENFORCEMENT*

***Cross references:** Administration, ch. 2.

DIVISION 1. GENERALLY

Sec. 14-36. Notice of violation; correction.

The procedures for enforcement of this chapter, except as otherwise provided, shall be set out in section 19.03 of the housing code. The building inspector shall have the powers and duties under the housing code.

(Code 1983, § 14.51)

Sec. 14-37. Penalty.

Any person who shall violate any provision of this chapter shall be subject to a penalty as provided in section 1-17. In any such action, the fact that a permit was issued shall not constitute a defense nor shall any error, oversight or dereliction of duty on the part of the building inspector constitute a defense.

(Code 1983, § 14.50)

Sec. 14-38. Appeals.

- (a) *Who may appeal.* Any person aggrieved and directly affected by a decision of the building inspector may appeal from such decision to the board of appeals.
- (b) *Meeting of board.* The board shall meet upon notice of the chairman within ten days of the filing of an appeal.
- (c) *Hearing.* All hearings shall be public; and the appellant, his representative, the building inspector and any other person whose interests may be directly affected by the matter on appeal shall be given an opportunity to be heard.
- (d) *Decision.* The board may affirm, modify or reverse the decision of the building inspector by a majority vote. Failure to secure a majority vote shall be deemed a confirmation of the decision of the building inspector, except the appellant shall be entitled to further hearing before a full board if all were not present when the vote was taken.
- (e) *Building inspector to implement.* The building inspector shall take immediate action in accordance with the decision of the board.

(Code 1983, § 14.05(11))

Secs. 14-39--14-55. Reserved.

DIVISION 2. BUILDING INSPECTIONS AND DEPARTMENT

Subdivision I. In General

Secs. 14-56--14-70. Reserved.

Subdivision II. Department of Building Inspection*

***Cross references:** Officers and employees, § 2-146 et seq.

Sec. 14-71. Supervisor.

- (a) The department of building inspection shall be under the supervision of the building inspector. The building inspector may employ qualified persons who shall bear the title of assistant building inspectors. The assistant building inspectors shall perform such inspection work as the building inspector may direct and shall perform such other duties as the building inspector may assign to them from time to time.
- (b) The offices of city plumbing, electrical and building inspector may be combined; and one person may be appointed to perform the duties of each of such offices.

(Code 1983, §§ 1.03(2)(i), 14.02(1))

Sec. 14-72. Records.

There shall be kept in the department of building inspection a record of all applications for building permits in a book for such purpose, and each permit shall be regularly numbered in the order of its issue. A record shall also be kept showing the number, description and size of all buildings erected, indicating the kind of materials used and the cost of each building and the aggregate cost of all buildings of the various classes. A record shall also be kept of all inspections made, and of all removal and condemnation of buildings, and a record of all fees collected, showing the date of their receipt and delivery to the city clerk/treasurer. The inspector shall report monthly to the city council and make an annual report to the council of these matters.

(Code 1983, § 14.02(2))

Secs. 14-73--14-85. Reserved.

Subdivision III. Inspection

Sec. 14-86. Supervision.

Building inspection shall be performed under the supervision of the building inspector. The building inspector shall have, except where otherwise provided in this chapter, the general management and control of all matters pertaining to building inspection and shall enforce all

state laws and city ordinances and lawful orders relating to the construction, alteration, repair, removal and safety of buildings and other structures and permanent building equipment. The inspector shall pass upon any question arising under this chapter relating to buildings, subject to conditions contained in this chapter.

(Code 1983, § 14.03(3))

Sec. 14-87. Access to premises.

The building inspector and his subordinates may at all reasonable times, for any proper purpose, enter upon any public or private premises and make inspection of such premises and require the production of the permit for any building, electrical or plumbing work or the required license.

(Code 1983, § 14.03(4))

Sec. 14-88. Interference with inspectors.

Any person interfering with building inspectors while in the performance of their duties shall, upon conviction thereof, be subject to a penalty as provided in section 1-17.

(Code 1983, § 14.03(5))

Sec. 14-89. Duty of police.

All police officers shall report at once to the building inspector any building within the city that is being carried on without a building permit as required by this chapter.

(Code 1983, § 14.06(1))

Sec. 14-90. Notification for inspections.

The building inspection department shall be notified when inspections are to be made. Such inspections shall be made within two business days after notification, excluding Saturdays, Sundays and legal holidays.

(Code 1983, § 14.06(2)(d))

Sec. 14-91. Schedule of inspections.

The building inspector, upon notification from the permit holder or his agent, may make or cause to be made the following inspections of buildings and shall either approve that portion of the construction as completed or shall notify the permit holder or his agent if either fails to comply with the law:

- (1) *Preliminary inspection.* Before issuing a permit, the building inspector shall examine or cause to be examined all buildings, structures and sites for which an application has been filed for a permit to construct, enlarge, alter, repair, remove, demolish or change the use of the building, structure or site. He shall conduct such inspections from time to time during and upon completion of the

work for which he has issued a permit. He shall maintain a record of all such examinations and inspections and of all violations of the building code.

- (2) *Foundation inspection.* A foundation inspection shall be made after trenches are excavated and forms erected and when all materials for the foundation are delivered on the job. Where concrete from a central mixing plant (ready-mix) is to be used, material need not be on the job. No backfilling is allowed before an inspection is made of all footings, foundations or drain tile.
- (3) *Frame inspection.* A frame inspection shall be made after the roof, all framing, fire blocking and bracing are in place and all pipes, chimneys and vents are complete. No lath or plaster base of any kind or any insulation between the studs shall be applied to any building until the frame inspection, electrical inspection, plumbing and heating inspection have been made and the work approved.
- (4) *Final inspection.* Upon completion of the work for which building the permit is issued and before issuance of a certificate of use and occupancy, a final inspection shall be made and all violations of the approved plans and permit shall be noted and the holder of the permit shall be notified of the discrepancies. Upon approval, the building inspection department shall post a certificate of inspection on the job. After such certificate has been posted, no structural part of the building shall be changed.
- (5) *Other inspections.* In addition to such inspections required by this section, the building inspector may make or require any other inspections of any construction work to ascertain compliance with the provisions of this chapter and other laws that are enforced by the building inspection department.

(Code 1983, § 14.06(2)(a)--(c), (e), (f))

Sec. 14-92. Certificate of use and occupancy.

The building inspector, if his final inspection finds no violations, shall issue a certificate of occupancy. In the certificate of occupancy he shall state the purpose for which the building is to be used. No building or part thereof shall be occupied until such certificate has been issued except with the written consent of the building inspector, nor shall any building be occupied in any manner that conflicts with the conditions set forth in the certificate of occupancy.

(Code 1983, § 14.06(2)(g))

Secs. 14-93--14-110. Reserved.

DIVISION 3. PERMITS AND PLANS

Sec. 14-111. Definitions.

The following words, terms and phrases, when used in this division, shall have the meanings ascribed to them in this section, except where the context clearly indicates a

different meaning:

Building includes any building or structure and any enlargement, alteration or demolishing of any building or structure.

(Code 1983, § 14.05(1))

Cross references: Definitions generally, § 1-2.

Sec. 14-112. Permits required.

- (a) *Scope.* No building, structure, billboard or sign or any part thereof shall be built, altered or demolished within the city except as provided in this division unless a permit shall first be obtained by the owner or his agent from the building inspector.
- (b) *Minor repairs or alterations.* No building permit shall be required for any minor repairs or alteration that do not change the occupancy, area, structural strength, fire protection, exits, lights or ventilation of the building and cost less than \$300.00 for residential, \$500.00 for commercial, \$1,000.00 for industrial.

(Code 1983, § 14.05(1); Ord. No. OR07-07, § I, 4-23-2007)

Sec. 14-113. Application.

Application for a building permit shall be made in writing upon a blank form furnished by the building inspector and shall:

- (1) State the name and address of the owner of the building and the owner of the land upon which it is to be erected;
- (2) Describe the location of the building and the purpose for which it is to be used; and
- (3) Contain such other information as the building inspector may require.

(Code 1983, § 14.05(2))

Sec. 14-114. Situation plan.

- (a) With the application for a building permit, there shall be submitted to the building inspector a complete set of plans and specifications, including a situation plan, showing the location of the proposed building with respect to adjoining streets, alleys, lot lines and buildings. Plans for buildings are required to comply with the state building code.
- (b) Prior to submission of an application for a building permit, each lot or site on which the proposed building is to be erected shall be properly surveyed and staked by a certified surveyor.

(Code 1983, § 14.05(3); Ord. No. OR04-07, § 1, 9-27-2004)

Sec. 14-115. Minimum, maximum grade.

All residential buildings shall be set at a grade providing at least a 12-inch pitch from

the grade line of the building to the front lot line. No residential building erected shall be set at a grade that will provide more than 60-inch pitch from the grade line of the building to the front lot line. Denial of a permit for noncompliance with the grade dimensions may be appealed to the board of appeals, which may grant relief from hardship by reason of terrain and other unusual circumstances.

(Code 1983, § 14.05(4))

Sec. 14-116. Water, sewer, roadway requirements.

- (a) *Permit.* No permit will be issued for the erection of a building upon a lot within the city until a final plat is recorded and for which no city water nor city sanitary sewer installations have been made; nor will such permit be issued unless the lot abuts upon a passable graded roadway that will allow proper and ready access for fire, police and other municipal services and equipment.
- (b) *Waiver of roadway requirement.* The passable graded roadway requirement in subsection (a) may be waived by the building inspector where the following conditions are met:
 - (1) The applicant has filed with the building inspector suitable proof that the passable graded roadway has been contracted for and will be completed in advance of the completion of residences or their occupancy.
 - (2) The council has determined that such proof is satisfactory and has authorized waiver of the roadway requirement by resolution.
- (c) *Storm sewers.* No permit will be issued for the erection of a building upon a lot within the city that lies in a natural drainage area where no storm sewer is available. The storm sewer requirement may be waived by the building inspector where the applicant makes provision for a ditch, culvert or other satisfactory means that will operate to drain off the stormwater accumulations amounting to a hazard to the public health, safety or welfare.

(Code 1983, § 14.05(5))

Sec. 14-117. Issuance of permits.

- (a) *Approval of plans, alteration.* If the building inspector finds that a proposed building will comply with all ordinances of the city and all laws and administrative rules of the state, he shall officially approve and stamp one set of the plans and return the other set, and shall issue a building permit, which shall be kept at the site of the proposed building. After being approved, the plans and specifications shall not be altered in any respect that involves any of the above-mentioned ordinances, laws or rules or that involves the safety of the building, except with the written consent of the building inspector.
- (b) *Inadequate plans.* If inadequate plans are presented, the building inspector may, in his discretion, issue a permit for a part of the building before receiving the plans and specifications for the entire building. No person shall commence work on any building or alteration before the building permit has been issued.

- (c) *Correction of errors.* The issuance of a permit upon plans and specifications shall not prevent the building inspector from thereafter requiring the correction of errors in such plans and specifications or from preventing building operations being carried on thereunder when in violation of the state building code, this chapter or of any ordinance of the city.
- (d) *Permit in violation invalid.* No permit presuming to give authority to violate or cancel the provisions of this chapter shall be valid except insofar as the work or use which is authorized is lawful.

(Code 1983, § 14.05(7))

Sec. 14-118. Waiver of plans.

If in the opinion of the building inspector the work is sufficiently described in the application for a building permit, he may waive the filing of plans.

(Code 1983, § 14.05(6))

Sec. 14-119. Posting permit card.

With every building permit issued, the building inspector shall issue to the applicant a city card properly filled out. Such applicant shall place such card in a conspicuous place on the premises where the building is to be erected, the card to be unobstructed from the public view and not more than 15 feet above grade.

(Code 1983, § 14.05(8))

Sec. 14-120. Expiration.

Every permit issued by the building inspector under the provisions of this chapter shall expire by limitation and become null and void if the building or work authorized by such permit is not commenced within 60 days from the date of such permit, or if the building or work authorized by such permit is suspended or abandoned for 120 days at any time after the work is commenced. Before such work can be recommenced, a new permit shall be first obtained to do so; and the fee thereafter shall be half the amount required for a new permit for such work provided no changes have been made or will be made in the original plans and specifications for such work and provided such suspension or abandonment has not exceeded one year.

(Code 1983, § 14.05(9))

Sec. 14-121. Revocation of permit.

If the building inspector finds at any time that the ordinances, laws, rules, plans and specifications referred to in this chapter are not being complied with, he shall revoke the building permit by written notice posted at the site of the work. When any such permit is revoked, no further work shall be done upon such building until a new permit is issued, excepting such work as the building inspector shall order to be done as a condition precedent to the issuance of a new permit.

(Code 1983, § 14.05(10))

Sec. 14-122. Plans to be submitted to department of commerce.

Plans for the following types of buildings shall be submitted to the department of commerce before a building permit shall be issued as specified in the state building, heating, ventilation and air conditioning code:

- (1) Any building the building inspector, in the public interest, may deem necessary for the approval of the building inspection department.
- (2) Any building for which such filing is required by state law or administrative rule.

(Code 1983, § 14.05(12))

Sec. 14-123. Fees for permits.

Before receiving various permits, the owner or his agent shall pay to the city clerk/treasurer the following amounts:

- (1) *New residential*: One- and two-family dwellings, additions, accessory buildings and remodeling building permit fees.
 - a. Minimum fees: Remodeling--\$110.00 or .02 percent, maximum \$500.00; additions--\$210.00 or .02 percent, maximum \$500.00; garages and accessory buildings; 0--100 square feet--\$35.00; 101--250 square feet--\$45.00; over 250 square feet--\$125.00b. State seal--\$35.00 (new homes only)
 - c. Plan examination--\$125.00
 - d. Living area--\$0.25 per square foot
 - e. Basements, garages, decks--\$0.12 per square foot
 - f. Erosion control--\$110.00 per lot
 - g. Manufactured homes--\$125.00
 - h. Final inspection deposit--\$150.00 (additions and new only) refundable if inspections are called for on time and occupancy is not taken before final inspection.
 - i. Re-inspection, failure to call for inspections--\$75.00 first time, double second time.
- (2) *Replacements and special projects*.
 - a. Minimum fee--\$35.00 except where noted
 - b. Roofing, siding, window replacement, fences, decks--\$35.00
 - c. Electrical service change--\$60.00
 - d. Foundation repairs--\$50.00

- e. Furnace, air-conditioner replacements/installation, each unit--\$35.00
- f. Razing any building--\$40.00
- g. Moving any building--\$40.00
- h. Plumbing alterations--\$50.00 plus \$2.50/opening, if not part of a remodel
- i. Building drain, sewer, water laterals--\$50.00
- j. Duct additions--\$35.00 if not part of a remodel

(3) *New commercial permits.*

- a. Construction--\$0.07 per square foot for first 20,000 square feet; \$0.04 per square foot over 20,000 square feet (minimum fee \$225.00, maximum \$2,000.00).
- b. Electrical--\$0.03 per square foot (minimum fee \$60.00, maximum fee \$1,000.00).
- c. Plumbing--\$40.00 plus \$2.75/opening.
- d. Drain, sewer, water laterals--\$50.00, plus \$50.00 per hour for inspection.
- e. HVAC--\$40.00/unit up to 150,000 BTU input, additional fee of \$15.00/each 50,000 BTU, \$800.00 maximum/unit.
- f. Exhaust hoods and exhaust systems--\$75.00
- g. Signs--\$35.00 plan review, \$25.00 permit fee plus \$1.00 per square foot (all sides).
- h. Early start permits--\$150.00 with plan approval.
- i. Erosion control--\$100.00/building plus \$5.00/1,000 square foot (\$1,000.00 maximum).

(4) *Commercial remodeling permits:*

- a. Construction--.02 percent of construction cost (minimum fee \$225.00, maximum fee \$1,500.00)
- b. Electrical--.02 percent of project cost (minimum fee \$75.00, maximum fee \$1,000.00)
- c. Plumbing--.02 percent of project cost (minimum fee \$75.00, maximum fee \$1,000.00)

(5) Multi-family dwellings--apartments, three-family or over, row housing.

- a. Living area--\$0.25 per square foot.
- b. Basements, garages, decks--\$0.12 per square foot.
- c. Erosion control--\$100.00/building plus \$5.00/1,000 square feet (maximum \$1,000.00).

d. Plan examination--\$50.00 per unit, maximum \$500.00.

(6) *Industrial new plant and addition permit:*

- a. Construction--\$.05 per first 30,000 square feet, \$.04 square foot over 30,000 square feet, minimum fee \$225.00, maximum \$2,000.00.
- b. Electrical--\$.04 per square foot with minimum \$100.00, maximum \$1,000.00.
- c. Plumbing--\$100.00 minimum plus \$2.75 per opening with maximum \$1,000.00.
- d. Sewer, storm sewer, water laterals--\$100.00 minimum, plus \$50.00 per hour for inspection.
- e. HVAC--\$200.00 with state approval or \$200.00 minimum for first 200,000 BTU and \$50.00 for each 50,000 BTU or fraction over 200,000.
- f. Early start permits--\$200.00 with plan approval.
- g. Erosion control--\$100.00 NOI, plus \$5.00 per square foot of disturbed area with maximum of \$3,000.00.

(7) *Industrial remodeling permits:*

- a. Construction--.02 percent of construction, minimum \$250.00 with maximum \$2,000.00.
- b. Electrical--.02 percent with minimum \$100.00, with maximum \$1,500.00.
- c. Plumbing--.02 percent of project cost with minimum \$100.00, with maximum of \$1,500.00.
- d. HVAC--\$100.00 for replacement of units.
- e. If inspections are needed a charge of \$50.00 per hour will be billed by the City of Brillion to the company on which work is being done.
- f. All industrial remodeling permit fees can be adjusted after review by the building inspector, the city administrator, or the mayor.

All fees double if work started before permit issued. Contractors licenses required for all construction, electrical, plumbing, HVAC work, unless approved by building inspector.

(Ord. No. 99-03, § 1(14.05(13)), 5-10-1999; Ord. No. OR05-01, § 1, 2-28-2005; Ord. No. OR07-08, § I, 4-23-2007)

Sec. 14-124. State building code.

The provisions of the building code contained in this chapter shall include any and all state laws and administrative regulations of the state department of commerce pertaining to construction and use of buildings, except as the same may be modified in this chapter, including:

- (1) Building, heating, ventilation and air conditioning.

- (2) Existing buildings.
- (3) Uniform dwelling code.
- (4) Building, heating, ventilation and air conditioning code.
- (5) Energy conservation code.
- (6) Existing buildings code.
- (7) Historic buildings code.
- (8) Uniform plumbing code.

(Code 1983, § 14.01(3))

Sec. 14-125. Fuel gas code.

Installations of appliances, equipment, accessories and piping that complies with the standards recommended by the American Standards Association in its manual entitled National Fuel Gas Code, Z223.1-1980, or subsequent revisions thereof, shall be considered prima facie as conforming to the reasonable standards of safety.

(Code 1983, § 14.48(2))

Sec. 14-126. Outdoor solid fuel fired heating devices.

- (a) *Definition.* An "outdoor solid fuel fired heating device" shall mean a free standing solid fuel unit or device designated for solid fuel combustion that;
 - (1) Is intended and/or used to provide useable heat and/or hot water to any associated structure.
 - (2) Operates by burning wood or any other solid fuel including but not limited to: coal, paper pellets, and agricultural products.
 - (3) Is not located within a building intended for habitation by humans or domestic animals and the structure to be heated.
 - (4) Includes, but not limited to, devices referred to as outdoor furnaces, outdoor boilers, and outdoor stoves.
- (b) An outdoor solid fuel fired heating device may be installed and used in the city only in accordance with the following provisions:
 - (1) Unless a specific written approval has been obtained from the department of natural resources, the following materials may not be burned in an incinerator, furnace, stove or any other indoor or outdoor incineration or heating device. The city will not issue a permit for burning any of the following materials without air pollution control devices and a written copy of an approval by the department of natural resources.
 - a. Rubbish or garbage including but not limited to food wastes, food wraps, packaging, animal carcasses, paint or painted materials, furniture,

composite, shingles, construction or demolition debris or other household or business wastes.

- b. Waste oil or other oily wastes except used oil burned in a heating device for energy recovery subject to the restrictions in Chapter NR 590, Wisconsin Administrative code.
- c. Asphalt and products containing asphalt.
- d. Treated or painted wood including but not limited to plywood, composite wood products or other wood products that are painted; varnished or treated with preservatives.
- e. Any plastic material including but not limited to nylon, PVC, ABS, polystyrene or urethane foam, and synthetic fabrics, plastic films and plastic container.
- f. Rubber including tires and synthetic rubber-like products.
- g. Newspaper, corrugated cardboard, container board, office paper and other materials that must be recycled in accordance with the recycling ordinance except as provided below in subsections 1. and 2.;
 - 1. Paper and cardboard products may be used as a starter fuel.
 - 2. Small quantities of confidential papers from a residence may be burned if necessary to prevent the theft of financial records, identification or other confidential information.
- h. Must meet EPA air standards.

- (2) The outdoor solid fuel fired heating device shall be located at least 100 feet from the nearest building which is not on the same property as the device.
- (3) The outdoor solid fuel fired heating device shall have a chimney that extends at least 15 feet above the ground surface. The building inspector may approve a lesser height on a case-by-case basis if necessary to comply with manufacturer's recommendations and if the smoke from the lower chimney height does not create a nuisance form neighbors.
- (4) The outdoor solid fuel fired heating device shall follow the minimum setbacks of the applicable zoning district.
- (5) Outdoor solid fuel fired heating devices shall be operated only between October 1 and April 30.

(c) *Existing nonconforming outdoor solid fuel fired heating devices.* The lawful use of a nonconforming outdoor solid fuel fired heating device existing a the time of the adoption or amendment of this section may be continued although such device does not conform to the provisions of this section. However, the use of a nonconforming outdoor solid fuel fired heating device shall not be a public nuisance as prohibited by subsection 70-12(5) of the Brillion Municipal Code.

(d) All outdoor solid fuel fired heating devices are considered an accessory structure and require a building permit.

(Ord. No. OR06-15, § 1, 11-27-2006)

Secs. 14-127--14-140. Reserved.

ARTICLE III. ONE- AND TWO-FAMILY BUILDING CODE

Sec. 14-141. Purpose.

The purpose of this division is to provide certain minimum standards, provisions and requirements for safe and stable design, methods of construction and uses of materials in buildings, structures, signs and billboards erected, constructed, enlarged, altered, repaired, moved, converted to other uses or demolished, and regulate the equipment, maintenance, use and occupancy of all buildings or structures.

(Code 1983, § 14.01(2))

Sec. 14-142. Garage provisions.

- (a) *Unattached garages and accessory buildings.* Unattached garages, etc., shall be less than 960 square feet and may be constructed on either concrete slabs or foundation walls or piers. Construction requirements for unattached garages and accessory buildings shall be the same as requirements for other buildings.
- (b) *Attached garages.* Attached garages, carports, shelters, etc., that are connected to a residence shall have footings and foundations to the established frostline. Attached garages with exterior siding shall be framed to meet all general requirements.
- (c) *Underground garages.* All garages located beneath one- or two-family dwellings shall have floors, walls, partitions and ceilings separating the garage space from the dwelling constructed of not less than three-fourths-hour fire resistance, including exitway through such garages, with a three-fourths-hour fire door or one three-fourths-inch solid core, flush type wood door or the approved labeled equivalent at the garage floor and a sill height of not less than four inches.

(Code 1983, § 14.23(1)--(3); Ord. No. 402, § IV, 5-23-1983)

Secs. 14-143--14-170. Reserved.

ARTICLE IV. MOVING BUILDINGS*

***Cross references:** Streets, sidewalks and other public places, ch. 82.

Sec. 14-171. Permit required.

No building shall be moved over city streets unless a permit has been granted by the

building inspector.

(Code 1983, § 14.35(1))

Sec. 14-172. Application.

Any person wishing to move a building over city streets shall make application to the building inspector on a form provided by him. Such application shall also be signed by the owner of the property to which the building is to be moved.

(Code 1983, § 14.35(2))

Sec. 14-173. Permit to state requirements.

- (a) Every permit issued to move a building shall state all conditions to be complied with, designate the route to be taken, and state the limit of time for removal.
- (b) The moving of the building shall be continuous during all hours of the day and day-by-day if the council so orders until the moving is completed to cause the least possible obstruction to streets.
- (c) No building shall be allowed to remain overnight on any street crossing or intersection.
- (d) Red warning lights shall be placed conspicuously on both ends of the building during the night.
- (e) If a building being moved must remain stationary on a street for any time, permission for such shall be obtained from the mayor and building inspector and shall be so placed as to permit easy access to any fire hydrant.

(Code 1983, § 14.35(3))

Sec. 14-174. Conditions to be met.

- (a) No permit shall be granted for the moving of buildings over city streets without certain conditions being met.
- (b) The axle load shall be such so there is no damage to the road surface.
- (c) No building, excluding mobile homes, shall be moved from outside the city to a location within the city without council approval.

(Code 1983, § 14.35(4), (6)(f))
